

**BROCHURE**

# **MNGTS**

**"Involve in better ideas for Bright Future"**

# Token Overview

- **Blockchain:** Binance Smart Chain (BSC)
- **Total Supply:** 5 Billion (5,000,000,000) Tokens
- **Token Type:** Utility Token
- **Primary Use Case:** Gaming token with future integrations into real estate-backed projects and additional utilities.
- **Backing:** MNGTS is backed by real-world assets and ventures, ensuring stability and long-term growth:
  - **UAE Real Estate:** Supported by AFM Developments with four flagship projects in Dubai:
    - Bonito Residential Apartments
    - Luxury Hotel Project
    - Villa Development
    - Community Project
  - **Sustainable Energy:** Geo Power, a renewable energy group.
  - **Information Technology & Marketing:** Digistromer, an innovative IT and marketing firm.

# Token Utility

## **Gaming Ecosystem:**

- MNGTS will serve as an in-game currency across multiple gaming platforms.
- Use cases include buying virtual assets, participating in tournaments, and in-game rewards.

## **Real Estate Integration:**

- Token holders can participate in real estate-backed offerings by AFM Developments.
- Potential uses: fractional ownership, discounts on properties, and exclusive access to Dubai projects.

## **Staking and Rewards:**

- Users can stake MNGTS tokens to earn passive rewards.
- The staking mechanism will promote long-term holding and token scarcity.

## **Ecosystem Expansion:**

- Used in upcoming MNGTS Wallet and Exchange for transaction fees, staking rewards, and governance participation.

# Roadmap Integration

## Phase 1: Initial Launch

- Smart contract deployment on Binance Smart Chain.
- Listing on decentralized exchanges (DEXs).
- Integration into the first set of gaming platforms.

## Phase 2: Real Estate Collaboration

- Launch of tokenized real estate offerings via AFM Developments.
- Introduce exclusive benefits for token holders within Bonito Apartments and villa projects.

## Phase 3: Ecosystem Development

- Release of MNGTS Wallet for secure token storage and staking.
- Begin MNGTS Exchange development for seamless trading and asset management.

## Phase 4: Utility Expansion

- Widen gaming platform integrations.
- Expand use cases in other real-world applications like e-commerce, loyalty programs, and sustainable energy initiatives.

Values and  
purpose

Buy a cryptocurrency  
exchange platform

Easier international  
trade

Accessibility  
ease to use

Well-defined  
APY and ROI

Re-invest in trading  
and capital markets

Recognition and  
incentives

Buy-in from  
managers

Personal growth  
and development

# Key Advantages

## Real-World Asset Backing:

MNGTS token is supported by tangible assets, including high-value real estate in Dubai and innovative energy solutions.

## Diversified Backing Companies:

Backed by AFM Developments, Geo Power, and Digistromer, ensuring sustainability across industries.

## Gaming Utility:

Positioned as a gaming token with a growing network of gaming partners, ensuring high utility and demand.

## **Sustainability:**

Powered by renewable energy solutions through Geo Power, aligning with global sustainability goals.

## **Scalable Ecosystem:**

Seamlessly integrates with MNGTS Exchange and Wallet, providing an all-in-one solution for token holders.

**MNGTS token combines the potential of blockchain** technology with real-world asset backing to create a stable and sustainable token. With its diversified utilities in gaming, real estate, and staking rewards, MNGTS is positioned to become a leading utility token in the crypto space.
